Character Essentials

Our Character Essentials for this month is 'We Have Feelings'. We will be creating character moments from infants to our school age program.

We will be focusing on building trust with infants by watching their signals and responding to their needs in a timely manner.

In our Toddler room we are creating an environment where children's feelings are accepted and labeling the emotions along with narrating strategies for coping with emotions.

For our preschool and school age classes we will be talking about all emotions from feeling happy, love, fear and anger and with the support of teachers we will learn how to self regulate our emotions using different strategies to control our emotions, reactions and behaviors.
