**BE
MINE**

**TRUE
LOVE**

CANDY HEART *Observations*

DIRECTIONS:

Predict (guess) what will happen when candy hearts are dropped into water. Then, draw and write your observations of what actually happened after dropping candy hearts into water. Repeat the process for both a clear, lemon-lime soda and vinegar.

QUESTION: Will candy hearts **sink** or **float** in water?

PREDICTION: Color in one heart:

OR

RESULTS: What happened? Draw and write your observations:

CANDY HEART *Observations*

DIRECTIONS:

Draw what happened to candy hearts when they were placed in each liquid.

water

soda

vinegar
